### DAILY HEALTH TALKS

What Is The Cause of Backache?

BY DOCTOR CORNELL

Backache is perhaps the most common ailment from which women suffer. Rarely do you find anybody free from it. Sometimes the cause is obscure, but Dr. Pierce, of Buffalo, N. Y., a high medical authority, says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptoms are backache, accompanied by bearing-down sensations, weakness, unhealthy discharges, irregularity, painful periods, irritation, headache and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite Prescription is a natural remedy for women, for the vegetable growths of which it is made seem to have been intended by Nature for that very purpose. Thousands of girls and women, young and old, have taken it, and thousands have written grateful letters to Dr. Pierce saying it made them well. In taking Favorite Prescription, it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do.

Send 10c for trial pkg. of Tablets. Address Invalids' Hotel, Buffalo, N. Y. Constipated women, as well as men, are advised by Dr. Pierce to take his Pleasant Pellets. They are just splendid for constipation.

### Easy to Avoid Worry.

Worry may be compared to any deadly disease and its victims are innumerable. And if we don't want to become one of the unhappy throng we must, wherever our lines are cast, adapt ourselves to circumstances. Airing our grievances and literally looking for more will inevitably result in our becoming downright miserable.
